

Meet Graham Taylor...

Graham comes from a rural background in the Township of Chatsworth and is studying Public Administration. He is currently in a fellowship program with the Association of Municipalities of Ontario (AMO), where he provides a youth perspective and serves on various policy task forces. He has always been proud of his community, and recently served on a Community Recreation Task Force to determine the future recreational needs in his region. His areas of interest include environmental, technology, fiscal and recreational policy that centres around community building and innovation, and he looks forward to bringing these perspectives to this program.
