

**Supplementary charts:
Number employed¹ in each industry sector in Ontario
for metro (CMA) areas and non-metro (non-CMA) areas,
monthly Labour Force Survey data, 1996 to 2018**

Figures 1 to 9 show the context of the level and change in population in non-metro (non-CMA) areas.

Figure 10 shows the level of employment in each of metro and non-metro areas from 1996 to 2018

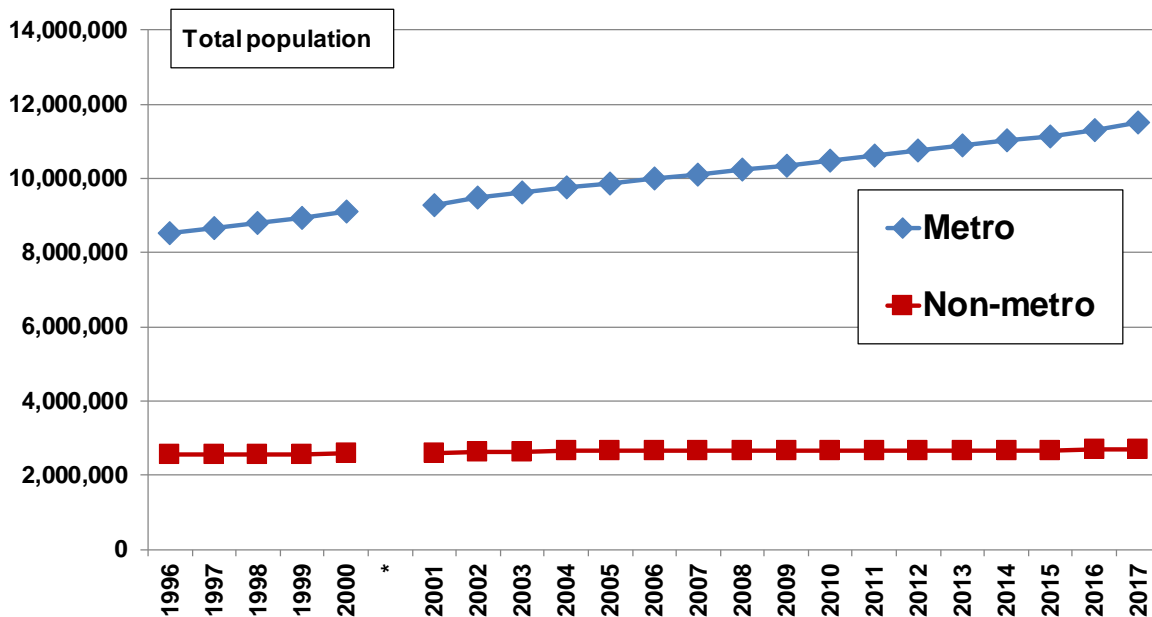

In the following Figures 11 to 49, each page shows two charts for a given industry sector:

- The first chart shows, for the given sector, the level and trend in employment levels from 1996 to 2018 for non-metro (non-CMA) areas; and
- The second chart shows, for the given sector, the trend in employment for the given sector in non-metro areas in comparison to the trend in metro areas.
 - Specifically, an index is created by setting the 12-month moving average for December, 2006 equal to 100 and thus the line for metro employment and the line for non-metro employment show the trend over time, relative to their respective employment levels in 2006.
 - The factsheets show simply the level of employment in 2006 and 2016 and these charts will show the trend for the entire period from 1996 to 2018.

¹ Employment is shown in terms of the place of residence of the individual and not in terms of the place of work (i.e. not in terms of the location of the job).

Figure 1

Ontario's non-metro population was 2.61 million in 2001 and changed slightly by 2017, reaching 2.7 million

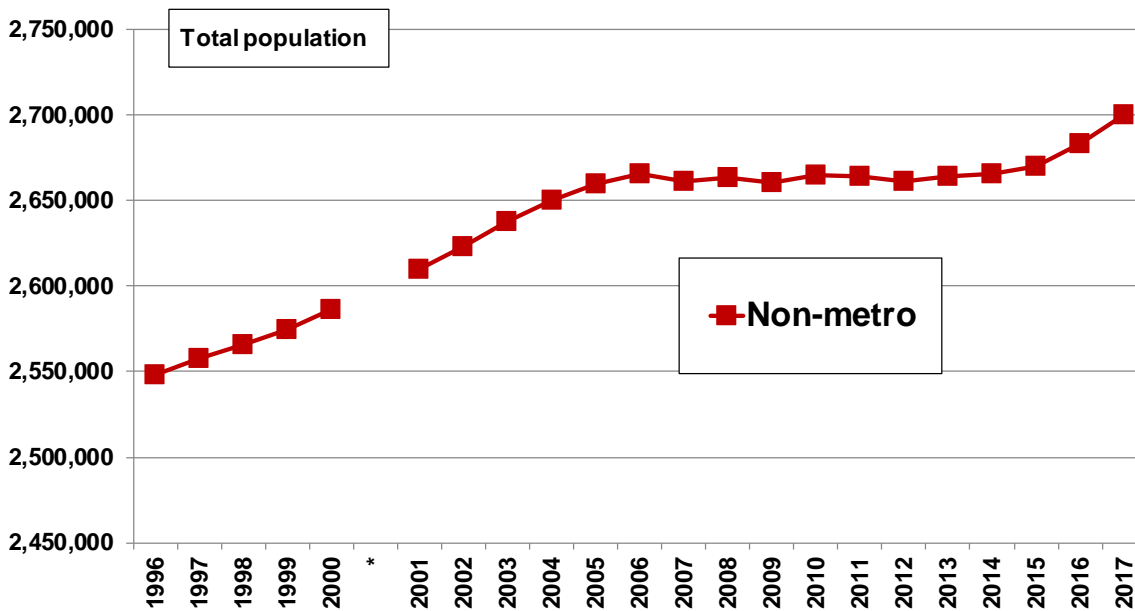

* Data for 1996 to 2000 are classified according to the boundaries for 2006 Census Metropolitan Areas (CMAs) and the data since 2001 are classified according to boundaries for 2011 CMAs.
Source: Statistics Canada. **Annual Demographic Statistics**. CANSIM Tables 051-0001, 051-0046 and 051-0056.

Chart by RayD.Bollman@sasktel.net

Figure 2

Ontario's non-metro population was 2.66 million in 2006 and changed slightly by 2016, reaching 2.68 million

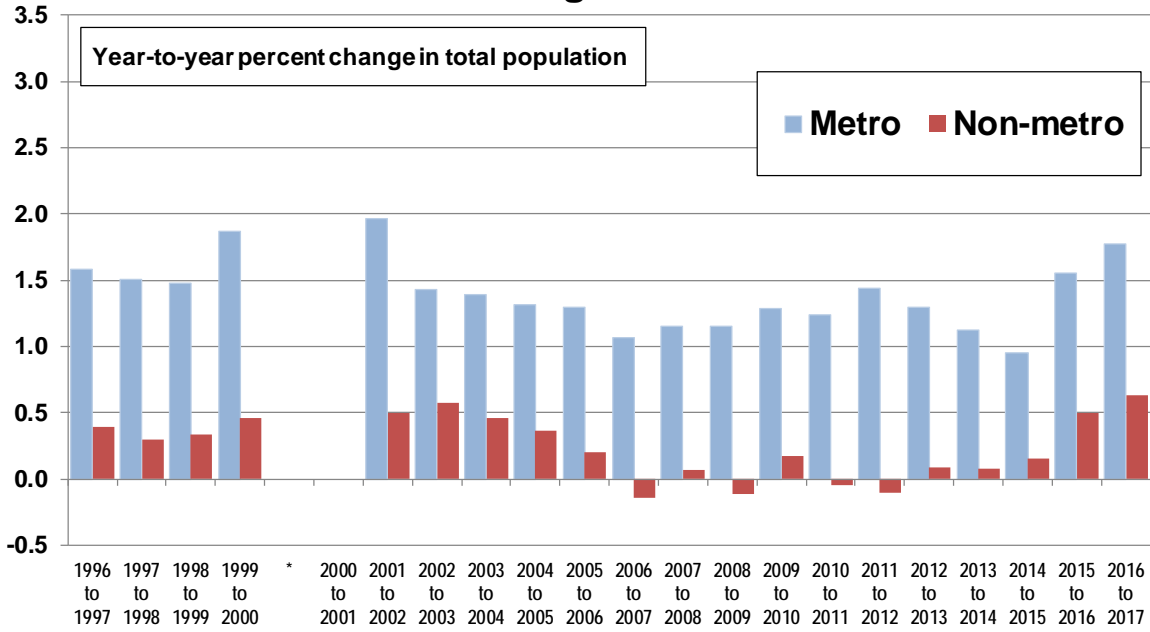

* Data for 1996 to 2000 are classified according to the boundaries for 2006 Census Metropolitan Areas (CMAs) and the data since 2001 are classified according to boundaries for 2011 CMAs.
Source: Statistics Canada. **Annual Demographic Statistics**. CANSIM Tables 051-0001, 051-0046 and 051-0056.

Chart by RayD.Bollman@sasktel.net

Figure 3

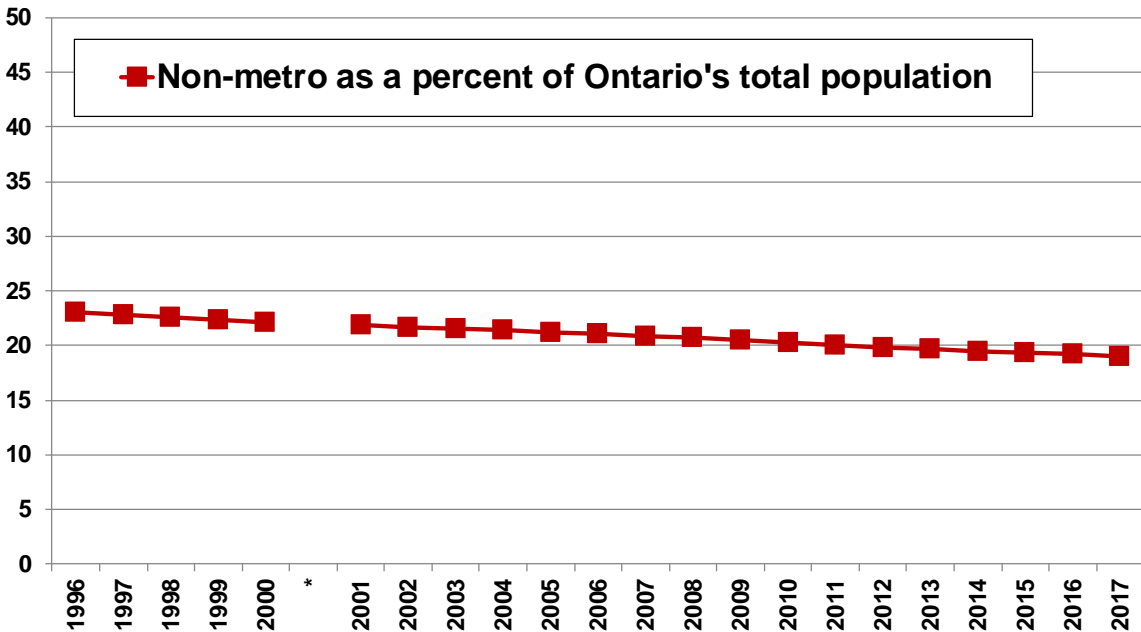

Ontario's non-metro population showed little change from 2006 to 2016

* Data for 1996 to 2000 are classified according to the 2006 grid for CMA boundaries and data since 2001 are classified according to the 2011 grid for CMA boundaries.
 Source: Statistics Canada. **Annual Demographic Statistics**. CANSIM Table 051-0001 and 051-0056. Chart by RayD.Bollman@sasktel.net

Figure 4

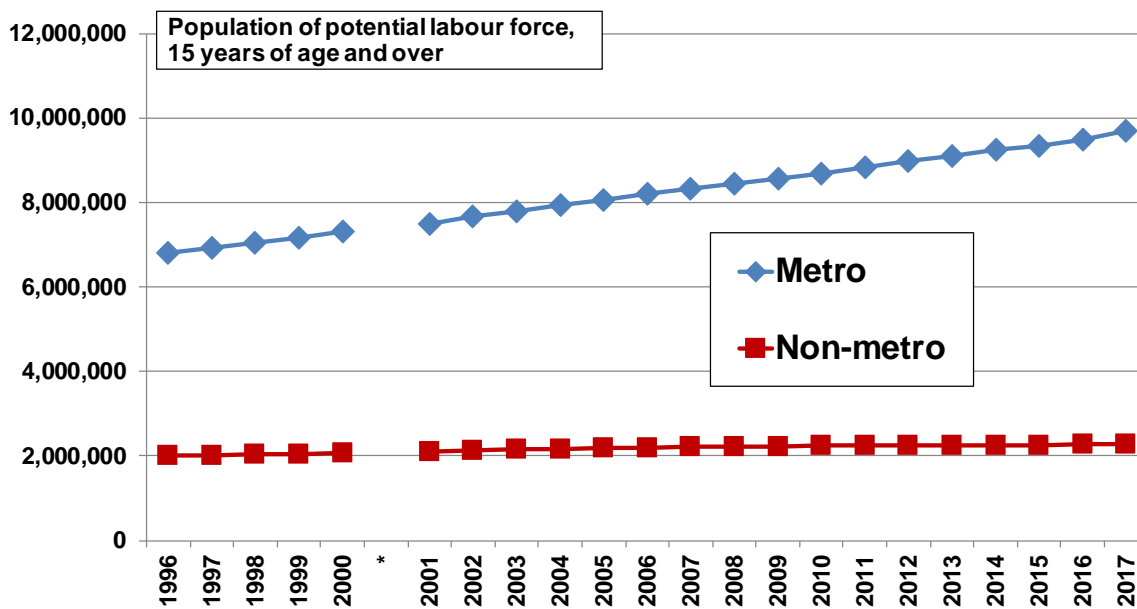

Non-metro areas represented 19% of Ontario's population in 2017

* Data for 1996 to 2000 are classified according to the 2006 grid for CMA boundaries and data since 2001 are classified according to the 2011 grid for CMA boundaries.
 Source: Statistics Canada. **Annual Demographic Statistics**. CANSIM Tables 051-0001 and 051-0056. Chart by RayD.Bollman@sasktel.net

Figure 5

Ontario's non-metro potential labour force (i.e. population 15+ yr.) grew from 2.20 million in 2006 to 2.27 million in 2016

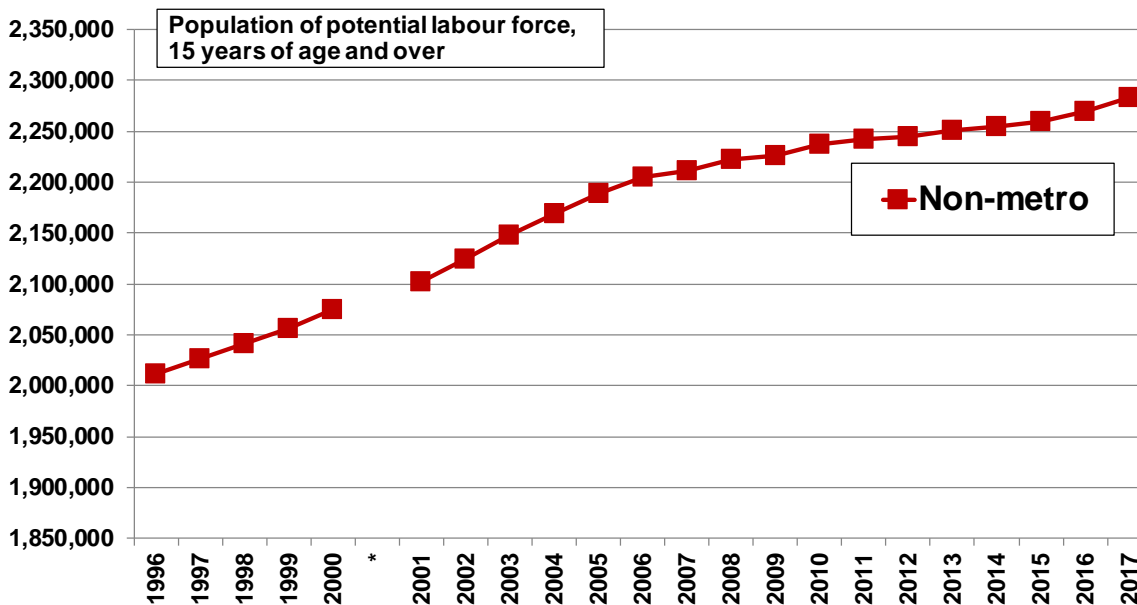

* Data for 1996 to 2000 are classified according to the 2006 grid for CMA boundaries and data since 2001 are classified according to the 2011 grid for CMA boundaries.
Source: Statistics Canada. **Annual Demographic Statistics**. CANSIM Table 051-0001 and 051-0056.
